

專題演講

History of Czech space activities and ground measurements of transient changes of electron densities in the ionosphere

Speaker : **Dr. Jaroslav Chum**

Institute of Atmospheric Physics, Czech Academy of Sciences, Bocni II 1401,
Prague, Czech Republic

Time : 107 年 10 月 25 日 星期四 12:00-13:00

Place : 健雄館(科四館) S4-811 教室

摘要/Abstract :

I will introduce a history of Czech satellites MAGION, and shortly also current space activities in the Czech Republic and satellite ground station in the first part of the talk. In the second part, I will shortly talk about my current research using mainly continuous Doppler sounding (partly ionosonde) for investigation of gravity waves, infrasound and effects of solar flares on the ionosphere.
