Room S4-917,
Chien-Shiung Building

A SPACE AGENCY IN THE NEW SPACE ERA

ANTOINE SEILLAN

FORMER CHIEF FINANCIAL OFFICER, CENTRE NATIONAL D'ÉTUDES
SPATIALES (FRENCH SPACE AGENCY)

Space agencies contributed to the emergence of the New Space sector but are also challenged by these new companies. This space ecosystem is seeking a new balance between complementarity and rivalry. Antoine SEILLAN, former CFO and Secretary General of CNES, will share his experience of space policy, programming, and finance. It will discuss how this new environment led public authorities to complete their toolbox - without renouncing the fundamental ambitions and objectives of space policy.
