Preface

Table of Contents

Lecture 1	Introduction to Plasma Maxwell Equations Appendix A Appendix B Appendix C Appendix D Appendix E
Lecture 2	Gyromotion and Plasma Oscillation
Lecture 3	Characteristic Length in Plasma
Lecture 4	Periodic Motions and Drift Motions in Plasma Lecture 3 in Lyu (2011) Appendix A in Lyu (2011) Appendix B in Lyu (2011) Appendix C in Lyu (2011)
Lecture 5	Drift motion: Multiple-time-scale analysis
Lecture 6	Component analysis of the $\mathbf{J} \times \mathbf{B}$ force, the electric field, and the current density field in plasma
Lecture 7	Introduction to Wave and Wave Equation
Lecture 8	Sound Wave in Neutral Gas
Lecture 9	Linear Waves in the Ion-Electron Two-Fluid Plasma Chapter 5 of Lyu 2014
Lecture 10	Linear Waves in the MHD plasma: Magnetohydrodynamic Waves Chapter 6 of Lyu 2014 Appendix B of Lyu 2014 Appendix C of Lyu 2014
