

第一屆 INSPIRE Workshop (International Satellite Program in Research and Education) 研討會

基於我們學校跟美國 University of Colorado 的衛星研究、教學合作計畫，我們今年 7/20 - 21 將在中大舉行第一屆 INSPIRE Workshop (International Satellite Program in Research and Education) 研討會。研討會除了討論目前與 University of Colorado 及 Indian Space Research Organization 的衛星合作計畫外，另外將針對太空系統開發、運用、及教學範例進行分享，並鼓勵國內外太空業界參加進行交流。

我們歡迎中大對太空系統開發、研究應用、及配合教學計畫有興趣的老師跟同學們投稿參加。我們預計第一天下午將舉行海報展跟交流會、晚宴，會議期間也將有從事太空系統、任務設計的老師、資深研究生進行概論介紹演說。

註冊截止日期是 6/20。有興趣分享相關經驗、或有任何疑問的師生歡迎跟我 (loren@ncu.edu.tw) 聯繫。會議網站在：<http://www.ss.ncu.edu.tw/~ispre/>

In support of our ongoing collaboration with the University of Colorado on the International Satellite Program in Research and Education (INSPIRE), we will be holding the first INSPIRE Workshop at NCU from July 20 - 21, 2016. The INSPIRE project is a multinational collaboration to build a constellation of small satellites for earth and space science research, supporting ground station network, and educational program on space systems and science. The workshop will cover discussions on the ongoing design process for INSPIRESat-1, and is also open to individuals and groups interested in space systems design, applications, and education, as well as academic and technical exchange with international colleagues in academia and industry.

We welcome participation from everyone engaged or interested in spacecraft design and the use of small satellites as a platform for research, commercial use, or education. We will have a poster session and introductions during the first day, followed by panel discussions and introductory tutorials on the following days.

The registration deadline is June 20. Please contact loren@ncu.edu.tw if you have any questions. The workshop website is at:
